Web 2.0

Talking about Web 2.0 without making your mother bored

Web 2.0

Welcome to our session on Web 2.0, ***Talking About Web 2.0 Without Making Your Mother Bored***. It is our goal to familiarize you with some of the most useful Internet tools and resources that are readily available to you, your students, your patrons, or your colleagues. We hope it will be evident that we are enthusiastic in our belief that this type of technology has many advantages for its users.

The features of Web 2.0 provide you with the power and choices to go beyond the role of consumer of web-based information.

Features of Web 2.0

- ✓ Interactive
- ✓ Collaborative
- ✓ Dynamic
- ✓ Personalized
- ✓ Creation Tools
- ✓ Online Applications

After the Session

It is possible that we will mention web sites and tools that you will wish to revisit in your own time. We have created a wiki page that includes links to all of the resources that you will hear about today. If you have another suggestion, we would be pleased to add that to the list.

Web 2.0 Links
<http://schlib.pbworks.com/Web20>

We also embedded our powerpoint with its active links on that site.

If you wish to contact either one of us for information, please feel free to contact us.

Keeping Up

There are so many tools on the web that it can be a challenge to keep up. Here are a couple of sites/services that enable you to do that :

Diigo [Bookmarks by Manitobans]

<http://www.diigo.com/user/Schlib/teacher-librarian>

<http://groups.diigo.com/group/LitwICT>

Learning Tools Directory
